Mr. Galicia brings over 20 years of mechanical and electrical experience. He began his career as an HVAC service technician where he learned to troubleshoot and diagnose systems. Mr. Galicia continued his education by earning multiple degrees in engineering while finishing his journeyman training. Mr. Galicia has worked in many sectors of the building industry. His expertise is in buildings energy management controls, HVAC, electrical and emergency generators. Over his career, Mr. Galicia has held titles as a regional technical advisor, application engineer, professor of HVAC and every systems, mechanical designer and commissioning authority.

During Mr. Galicia's 20-year career span he has worked with manufacturers, consulting firms, emergency energy response firms, engineering and commissioning firms. Mr. Galicia also holds an MBA degree and multiple credentials. As a Commissioning Authority, he brings a wide range of technical background and awareness of asset risk management. Mr. Galicia gives direction to the technical team and emphasizes on protecting the client's return on investment by assuring the energy systems will perform as designed intended and by reducing the unforeseen additional construction cost to the project.
